

## Vukovic Marija

JR FRONT-END DEVELOPER  
/ ENVIRONMENTAL ENGINEER

### About me

Communicative and always smiling. Patient, persistent, and I love teamwork. Also, I'm eager to learn new Web Development skills and to improve my knowledge. If I'm not working or learning then I'm playing with my dog, taking a long walk or taking photographs.

### Volunteering

#### TMF - 2014

Disinfecting schools that were hit by big floods in 2014.

### Recent Projects

#### Webselenese/part-time

Tel Aviv - Israel

Regular uploads and moderation for WordPress website. Monitoring a website and making changes on the same, getting on board and managing new team members, uploading content and quality assurance. Currently, I'm managing the workflow and the team.

tech stack: WordPress and HTML

03/2019. – currently

#### Forandor

Belgrade - Serbia

Rent-a-car Web App for the startup company based in California, US. The App is used to help users rent vans, customized for different purposes like party, safari, team-building, family travel, etc. Some of my tasks were fixing react-router, implementing search filters, UI bug fix-ups, etc.

tech stack: React.js, Redux, React-router, git

02/2019. – 09/2019.

#### Forandor

Belgrade - Serbia

Creating a science Web App for lab technicians for the company based in Potsdam, Germany. The app is used to track the process of protein development and show graphs generated from input data.

tech stack: React.js, Redux, Sass, Material-UI, ESLint, git

03/2019. – 06/2019.

#### Forandor

Belgrade - Serbia

Creating a Web App for a startup based in Munich, Germany. The purpose of this App was to help doctors track a patient's pregnancy progress, activities, weight, and mood. Doctors were able to write articles, check-ups, to-dos, and recommendations using App and track patient progress on those as well.

tech stack: React.js, Redux, Sass, Reactstrap, git

11/2018. – 05/2019.

#### KiveliTranslations

Belgrade - Serbia

Creating and maintaining the website for a translation agency.

tech stack: WordPress, MySQL, HTML, CSS

02/2018. – 09/2018.

#### BTravel

Belgrade - Serbia

Creating and maintaining a website for travel agency, configuring hosting services.

tech stack: WordPress, MySQL, PHP, jQuery, HTML, CSS, Bootstrap

10/2017. – 04/2018.

### Education
